

Messiah Girl Melissa

Messiah girl Melissa came to this place with love.
She walked through villages of the philosophical poor.
The world refused to pay attention because there was no budget for
her ideas.
Perhaps it was just a girl thing.

She exposed her heart but not her flesh.
Miracles are no match for media marvels.
In an urban desert she tried to rise through days of trial.
This savior girl was tempted and victorious but still unnoticed.

She taught the thought that temporal beauty is transient at best and
frequently pretty stupid.
Was messiah girl ignored because she kept her radiance so neatly
tucked in?
Would enlightened boy Bob have the same problem?
She surrendered to obscurity then took a new name and
occupation.

She may live near you, but you will never know because you didn't
notice when she did.
